When you locate alumni via the Find Alumni tool, contact them to ask for career advice or to learn more about their organization. See below for a sample introductory message to someone you do not know:

Dear Mr. Smith,

I am currently a senior biology major at the University of Louisiana Monroe hoping to enter the medical research industry, and I noticed on your profile that you are also a ULM alumnus with experience in this field. I would love the opportunity to connect with you and learn more about your career path. Thank you!

Sincerely,

John Daniels
