

# ULM Counseling Programs

*College of Health and Pharmaceutical Sciences*

## Master's Degree in Counseling with a Clinical Mental Health Concentration

- Predominantly Online Program
- Degree allows graduates to pursue LPC licensure
- CACREP accredited

Licensed Professional Counselors work with individuals, families, and groups to address and treat mental and emotional disorders and to promote mental health.

They are trained in a variety of therapeutic techniques used to address issues such as:

depression	anxiety	addiction	substance abuse
stress	trauma	grief	suicidal impulses
low self-esteem	and more.		

They also help with job and career concerns, educational decisions, mental and emotional health issues, and relationship problems.
