

# ULM Graduate School

Your Pursuit...Our Passion™

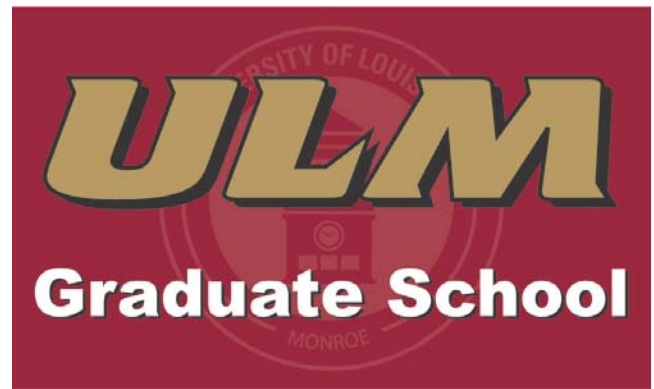

**HAVE YOU** considered the competitive advantage a graduate degree provides?

**ULM's GRADUATE PROGRAMS** are designed so that you will get the most out of your education. You will interact with and study under scholars of national and international distinction in their respective fields. Did you know that ULM offers 28 disciplines to meet your career goals? Graduate degrees can be pursued full time, part time and online.

## **MORE EDUCATION = MORE MONEY!**

Individuals with a graduate degree can make from \$500,000 to \$1,500,000 more in a lifetime than a person without a graduate degree.

Those with master's or doctoral degrees are poised to earn significantly higher salaries than those with a bachelor's degree. With a graduate degree you have the potential of being better compensated for your education than if you had stopped at the undergraduate level. If you have a graduate degree, you are likely to start your career at a higher level and continue to advance your career at a faster rate than if you earned only a bachelor's degree in your field.

## **Why ULM?**

It makes sense to choose ULM for graduate study. We offer everything you should expect from a graduate environment: intellectually stimulating faculty and peers, a strong commitment to professional growth and development, and excellent networking opportunities—all on a beautiful campus.

## **Affordability**

ULM offers one of the best graduate education values in the nation. Tuition for Fall, 2008 was just over \$1,800 for full time Louisiana students and just under \$5,000 for full time out of state students. Students are eligible for graduate assistantships that offer tuition waivers and competitive stipends. Our financial aid experts will help you find the right combination of assistantships, scholarships, loans and work-study opportunities to assist financially in your educational pursuit.
