

EXAMPLE

FACULTY

POSITION ANNOUNCEMENT

Assistant Professor of Computer Information Systems

RESPONSIBILITIES

The Department of Computer Information Systems promotes a balance between teaching and intellectual contributions, combined with professional service to the university, discipline, and community. The normal teaching load will be 9 credit hours per semester in areas such as programming (Visual Basic.net), systems development, database management, networking, and systems support.

QUALIFICATIONS

A doctoral degree in information systems or related area is required, although ABD candidates in late stages of dissertation will be considered. The ideal candidate's qualifications will include

- excellent teaching skills and the ability to function collegially as a member of the CIS faculty,
- coursework and/or experience in database systems, systems analysis, design and implementation, programming language, hardware and systems software, and/or enterprise-wide business software systems (e.g., SAP), and/or object-oriented methodologies and/or advanced multi-user operating system environments (e.g., UNIX, Windows/Server 2003),
- work experience in IS,
- evidence of the ability to perform quality applied, basic, or instructional research, and of an established or planned research agenda,
- good interpersonal skills,
- effective written and oral communications skills, and
- the ability and desire to work in an interdisciplinary environment.

APPLICATIONS

Applications will be accepted immediately and reviewed. The application process will close on December 15, 2004. Interested candidates should send a letter of application, current vita, and three letters of recommendation (along with the names, telephone numbers, and email addresses of the three references) to
