Members absent	
Guests	George Matthaiolampakis

Agenda Items:	Discussion:
<ol style="list-style-type: none"> 1. Future planning for new faculty orientation 2. Next meeting 	<ol style="list-style-type: none"> 1. Drs. Cady, Lowery, & Matthaiolampakis presented their ideas for future new faculty orientation. <ul style="list-style-type: none"> • A checklist of important logistics was recommended to be posted on Moodle &/or the SoP website. It was noted that electronic access to email, Moodle, etc, cannot be established prior to the new hire's arrival. • We reviewed that ACPE Std 19.5. Faculty/staff development is very general & makes no specific recommendations: <i>The college or school provides opportunities for career and professional development of its faculty and staff, individually and collectively, to enhance their role-related skills, scholarly productivity, and leadership.</i> • Member thoughts on having new faculty teach in front of colleagues to get feedback were mixed; some may find it intimidating. We may consider offering new faculty the option, if desired. • It was noted that development needs of BPS faculty are different from clinical faculty, but all departments are represented on the committee and have the opportunity to provide input on programs and encourage department colleagues to attend.- • We will post the ideas presented in a Google doc and Drs. Cady, Lowery, & Matthaiolampakis will organize it into a longitudinal plan with tracks for various faculty needs to be discussed at our next meeting. 2. We will reconvene in June to finalize orientation plans before our new hires arrive for the next academic year.
