

Pre-engineering at the University of Louisiana Monroe

The pre-engineering program at ULM prepares students for success in the engineering discipline of their choice. This program is designed for students that are interested in engineering but do not want to commit to a specific engineering curriculum straight out of high school. Students will spend a nominal 2 years at ULM and transfer to a school of engineering for 3 more years to complete their education.

Pre-engineering curriculum:

First Year	Hrs	Second Year	Hrs
Biology 120, 121	4	Communication Studies 201.....	3
Chemistry 107, 108, 109, 110 ...	8	Mathematics 132.....	4
