Adding Faxed Receipt Images to an Expense Report

Users can add faxed receipt images to expense folders for up to 60 days after an expense folder is created. When faxing receipts, users should attempt to fit as many receipts on a page as possible to maximize storage space. The system has a limit of 50 pages per fax. If a user needs to fax more than 50 pages, they will need to separate it into multiple faxes using the same cover sheet with barcode.

Generally receipts are visible in Works in approximately 90 minutes or less. If a receipt image is not visible in Works within 24 hours, the user should re-fax.

A confirmation or failure email is sent within one business day regarding the status of the faxed submission. If the user does not receive an email from Works regarding their fax, they should resend the fax cover page along with the receipts again to the number provided on the Fax Cover sheet.

**Note:** Your individual organization is considered the primary data owner, therefore, you are responsible for maintaining original receipts.

To add faxed receipt images to an Expense Report, complete the following:

1. Click **Expenses > Expense Reports > Owner**.
2. Click the desired **Expense Report Name**. The single-action menu displays.
3. Select **Add Faxed Receipts**. The Works Receipts Fax Cover Page displays (Figure 3).

4. Print the **Fax Cover Page**.
