

## **APPLYING FOR GRADUATION**

Students who plan to complete graduation requirements at the end of the semester should check with their respective department and/or dean's office to file an Application for Degree for each degree to be awarded. The application(s) should be submitted during the first week of classes. Any student who submitted an application for degree last semester, but did not graduate, must file a new application if he or she plans to complete degree requirements during a current enrollment period.

Graduating students who plan to return to The University of Louisiana at Monroe for additional course work must complete and submit an Application for Admission to the Office of Recruitment/Admissions for undergraduate credit or Graduate Admissions for graduate credit.
