

ART ELECTIVE FOR ART MAJORS, Fall 2021

44838 ART 4009

TECHNIQUES IN FINE ARTS

MW 08:00 am-10:45 am Aundrea Brooke Foy, STBS _____

The 4009 course number has been used as an umbrella to cover various topics in the Art Program and will satisfy an art elective requirement.

This class is professional practices in art, an introduction and overview of the business of art.

Here are just a few reviews from students that took the class last Fall.

These reviews are from banner so I am just copying and pasting here:

Brooke Foy
Assistant Professor of Art
University of Louisiana Monroe
foy@ulm.edu

1. This class was great. Until this class the business of art was unknown to me. I believe many artists would benefit from this class or even a series of classes that focus in on the many lanes required to operate a successful art business. Our textbook was motivational. The businesses and people we spoke to gave us great insight into the many avenues of art as a career. The instructor, Brooke, encouraged us to seek out our dream jobs and she walked us through each step on how to achieve it! It was very insightful and necessary class.
2. This course was amazing. I learned so much about my own goals and what I desire for my future.
3. I Thoroughly enjoyed this class. I feel like this course was especially needed earlier on in my art degree (maybe as a freshman or sophomore) and the instructor for this course was the best choice. She is quite motivational and encouraging, so I have full confidence now in my art degree. I had alumni even say that they wish this course was offered before they graduated as it would have prepared them more for the art of business in art.
