Two new animal welfare assurance protocols were submitted to on 1-2-06. Since it is permissible for protocols to be reviewed by the IACUC and, if there are no negative findings or concerns, approved, the following protocol was distributed:

2. Dr. Karen P. Briski – Role of CNS type II Glucocorticoid receptors in recurrent insulin-induced hypoglycemia-associated counterregulatory dysfunction. (start date 7-1-06)

There were no negative findings or concerns from the reviewing members (Tolson, Findley, Maggio, Baer, White and Blaylock); therefore, this protocol was approved.
