2020 LOUISIANA TEACHER PREPARATION PROGRAM FACT BOOK INTRODUCTION

The creation of the 2020 Teacher Preparation Data Dashboards and Teacher Preparation Program Fact Book are two endeavors that are being voluntarily implemented to address the need to provide the public with access to outcome data about teacher preparation programs in Louisiana. The Teacher Preparation Data Dashboards provide a short summary of relevant data about individual teacher preparation programs in Louisiana. The Teacher Preparation Program Fact Book provides listings of data found in the individual data dashboards plus additional contextual data. All teacher preparation programs discussed in the Teacher Preparation Program Fact Book have voluntarily signed data agreements with the Louisiana Board of Regents and Louisiana Department of Education to share data about their candidates and to have aggregate level data reported to the public in the Teacher Preparation Data Dashboards.

Outcome data in the 2020 fact book pertains to cohorts of 2017-18 program completers or earlier completers who taught in Louisiana's schools during 2018-19 or previous years. Retention data has been provided for 2017-18 completers who taught in 2018-19. Plus five year retention data are provided for 2013-14 completers who taught each year through 2018-19. In addition, three year averages for Compass teacher evaluation data and Value-added student growth data are provided for the academic years 2016-17, 2017-18, and 2018-19.

Louisiana obtained permission from Teacher Preparation Analytics to use a structure called *2020 Key Effectiveness Indicators* (See Appendix A) developed by Michael Allen, Edward Crowe, and Charles Coble, co-partners of Teacher Preparation Analytics to develop the Louisiana Teacher Preparation Data Dashboards (<u>http://teacherpreparationanalytics.org/wp-content/uploads/2017/01/KEI-Guide-12-15-16.pdf</u>). This work was originally commissioned by the Council for the Accreditation of Educator Preparation.

To access all individual 2020 Teacher Preparation Data Dashboards, please go to the following URL: <u>https://regents.la.gov/planning-research-and-academic-affairs/academic-affairs/teacher-education-initiatives/teacher-preparation-data-dashboards-fact-book/</u>.

See Appendix B for a copy of the data dashboard template.

LISTING OF TEACHER PREPARATION PROGRAMS AND WEB SITES

A listing has been provided of the teacher preparation programs in Louisiana that are identified in the Teacher Preparation Program Fact Book and websites for information about the programs.

STATE, REGIONAL, AND NATIONAL APPROVAL/ACCREDITATION OF TEACHER PREPARATION PROGRAMS

A listing has been provided of the approval/accreditation status of all teacher preparation programs in Louisiana. All teacher preparation programs listed have obtained state approval from the Board of Elementary and Secondary Education (BESE) for candidates who complete the programs to be certified to teach in Louisiana if they meet all state certification requirements. All public and private universities are regionally accredited as degree-granting higher education institutions by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). All public universities listed in the document have degrees that have been approved by the Board of Regents (BoR). All public and private universities, except for Loyola University and Centenary College, have obtained national program accreditation from the National Council for Accreditation of Teacher Education (NCATE), Teacher Education Accreditation Council (TEAC) or Council for the Accreditation of Educator Preparation (CAEP).

PERCENTAGE OF PROGRAM COMPLETERS PASSING PRAXIS ASSESSMENTS FOR TEACHER LICENSURE

UNDERGRADUATE PROGRAMS (2017-18)

State law requires all undergraduate teacher candidates to pass an assessment approved by the State to be admitted to a teacher preparation program. All teacher candidates must pass the Core Academic Skills for Educators assessments to enter teacher preparation programs and must obtain the required cut-off scores that are required by the Board of Elementary and Secondary Education (BESE) for new teachers to obtain a license to teach in Louisiana. Teacher candidates may also obtain an ACT composite score of 22 or a SAT combined verbal and math score of 1100 or higher (New SAT) or 1030 or higher (Pre-March 2016 SAT) in lieu of the Core Academic Skills assessments. State law also requires undergraduate teacher candidates to take all remaining State licensure assessments (i.e., Praxis subject areas; Praxis professional knowledge) prior to graduation; however, the law does not require teacher candidates to meet all Louisiana teacher licensure requirements to obtain a degree in teacher education. Some universities allow students to appeal the university policy. Additional information about Praxis passage rates can be found on the following USDE Title II Report website that addresses the Higher Education Act: http://title2.ed.gov .

PERCENTAGE OF PROGRAM COMPLETERS PASSING PRAXIS ASSESSMENTS FOR TEACHER LICENSURE

ALTERNATE PROGRAMS (2017-18)

Board of Elementary and Secondary Education (BESE) policy requires all alternate teacher candidates to hold a baccalaureate degree and pass the Core Academic Skills assessments and subject area assessments to enter teacher preparation programs. They must obtain the cut-off scores required by BESE for new teachers to be certified to teach. Teacher candidates may also have a Master's Degree or obtain an ACT composite score of 22 or a SAT combined verbal and math score 1100 or higher (New SAT) or 1030 or higher (pre-March 2016 SAT) in lieu of the Core Academic Skills assessments. Additional information about Praxis passage rates can be found on the following USDE Title II Report website that addresses the Higher Education Act: http://title2.ed.gov.

MEDIAN GRADE POINT AVERAGE OF CANDIDATES ENTERING AND COMPLETING TEACHER PREPARATION PROGRAMS

UNDERGRADAUTE PROGRAMS (2017-18)

All undergraduate teacher preparation programs in Louisiana require a minimum Grade Point Average of 2.5 for candidates to be admitted to a teacher preparation program. The median Grade Point Averages of 2017-18 undergraduate program completers ranged from a low of 2.8 to a high of 3.8 when they entered their teacher preparation programs. The median Grade Point Averages of 2017-18 undergraduate program completers ranged from a low of 3.0 to a high of 3.7 at the point when candidates completed their teacher preparation programs. A 4.0 is the highest value for a Grade Point Average.

| Undergraduate Teacher Preparation Programs | Median Grade Point Average of Candidates Entering Teacher Preparation Program | Median Grade Point Average of Candidates Completing Teacher Preparation Program | | | | |
|---|---|---|--|--|--|--|
| PUBLIC UNIVERSITIES | | | | | | |
| Grambling State University | 3.4 | 3.4 | | | | |

MEDIAN GRADE POINT AVERAGE OF CANDIDATES ENTERING AND COMPLETING TEACHER PREPARATION PROGRAMS

ALTERNATE PROGRAMS (2017-18)

The median Grade Point Average of 2017-18 alternate program completers ranged from a low of 2.8 to a high of 4.0 when they entered their teacher preparation programs. The median Grade Point Averages of 2017-18 alternate program completers ranged from a low of 2.9 to a high of 4.00 when they completed their programs. A 4.0 is the highest value for a Grade Point Average.

NUMBER OF TEACHER CANDIDATES ENROLLED AND TEACHER CANDIDATE COMPLETERS

UNDERGRADUATE PROGRAMS (2017-18)

Teacher candidates must meet criteria identified by the State and universities to be admitted and officially enrolled in an undergraduate teacher preparation program. The criteria includes passage of the Core Academic Skills assessments or obtain an ACT composite score of 22 or a SAT combined verbal and math score 1100 or higher (New SAT) or 1030 or higher (pre-March 2016 SAT) in lieu of the Core Academic assessments. They must also obtain a 2.5 or higher GPA and meet other entry requirements. The following chart identifies the number of candidates who were officially enrolled in undergraduate programs but had not yet completed the programs, number of students who completed undergraduate programs, and the total number of candidates in the undergraduate teacher preparation programs during 2017-18.

| Undergraduate Teacher Preparation Programs | Teacher Candidates Enrolled in Program | Teacher Candidates Completed Program | Total Enrolled and Completed | | |
|---|---|---|---------------------------------|--|--|
| PUBLIC UNIVERSITIES | | | | | |
| Grambling State University | 16 | 16 | 32 | | |
| Louisiana State University at Alexandria | 41 | 9 | 50 | | |
| Louisiana State University and A&M College | 542 | 141 | 683 | | |
| Louisiana State University at Shreveport | 73 | 29 | 102 | | |
| Louisiana Tech University | 111 | 71 | 182 | | |
| McNeese State University | 223 | 62 | 285 | | |
| Nicholls State University | 210 | 90 | 300 | | |
| Northwestern State University | 191 | 42 | 233 | | |
| Southeastern Louisiana University | 401 | 145 | 546 | | |
| Southern University and A&M College | 39 | 6 | 45 | | |
| Southern University at New Orleans | 7 | 5 | 12 | | |

| Xavier University of Louisiana | 15 | 2 | 17 | | |

NUMBER OF TEACHER CANDIDATES ENROLLED AND TEACHER CANDIDATE COMPLETERS

ALTERNATE PROGRAMS (2017-18)

Teacher candidates must meet criteria identified by the State and teacher preparation programs to be admitted and officially enrolled in an alternate teacher preparation program. The criteria includes possession of a baccalaureate degree from a regionally accredited institution and passage of Praxis Core Academic Skills assessments. Teacher candidates may have a Master's Degree or obtain an ACT composite score of 22 or a SAT combined verbal and math score 1100 or higher (New SAT) or 1030 or higher (pre-March 2016 SAT) in lieu of the Core Academic Skills assessments. The candidates must pass Praxis subject area assessments, have a required GPA, and meet other entry requirements. Candidates enter one of three alternate pathway: Master of Arts in Teaching; Practitioner Teacher Program; or Certification-Only Program. Most alternate candidates teach full time as a teacher of record while being enrolled in their alternate certification programs. The following chart identifies the number of candidates who were officially enrolled in alternate programs but had not yet completed the programs, number of additional candidates who completed the alternate programs, and total number of candidates in the alternate teacher preparation programs in 2017-18.

| Alternate Teacher Preparation Programs | Teacher Candidates Enrolled in Program | Teacher Candidates Completed Program | Total Enrolled and Completed |
|--|---|---|---------------------------------|
| | NIVERSITIES | | |
| Grambling State University | 8 | 7 | 15 |
| Louisiana State University at Alexandria | 27 | 19 | 46 |

NUMBER OF HOURS FOR CLINICAL EXPERIENCES FOR TEACHER PREPARATION PROGRAMS

UNDERGRADUATE PROGRAMS (2017-18)

The Board of Elementary and Secondary Education (BESE) requires 2017-18 teacher candidates to spend a minimum of 270 clock hours in student teaching, with at least 180 of such hours spent in actual teaching. BESE requires that a substantial portion of the 180 hours be on an all-day basis. In addition to the student teaching experience, BESE states that students should be provided actual teaching experience (in addition to observations) in classroom settings during the sophomore, junior, and senior years within schools with varied socioeconomic and cultural characteristics. It is recommended by BESE that preservice teachers be provided a minimum of 180 hours of direct teaching experience in field-based settings prior to student teaching. Student teaching generally occurs during one semester with a student being supervised by an experienced classroom teacher. Information provided below identifies the actual number of clock hours required by each teacher preparation program prior to student teaching and during student teaching.

Effective January 1, 2017, BESE issued a new policy that required institutions to address new requirements for purposes of teacher preparation program approval. As part of the new requirements, teacher candidates were required to complete a One Year Residency instead of old requirements for Student Teaching. During 2017-18, institutions were encouraged by BESE to pilot the use of One Year Residencies. Thus, 2017-18 was a transition year for institutions as they either piloted One Year Residencies or developed plans to implement One Year Residencies as new candidates entered programs during following years.

| Undergraduate Teacher Preparation Programs | Clock Hours Prior to Student Teaching | Clock Hours During Student Teaching |

NUMBER OF HOURS FOR CLINICAL EXPERIENCES FOR TEACHER PREPARATION PROGRAMS CONT'D

ALTERNATE PROGRAMS (2017-18)

BESE policy allows institutions with Alternative programs to offer one or both of the following options:

- Student Teaching: Once coursework is primarily completed, candidates complete Student Teaching under the direct supervision of a certified teacher who is the Teacher of Record.
- Teaching Internship: Candidates teach as the Teacher of Record while completing coursework and a one year Teaching Internship. They also receive first year support.

The information below is for institutions that offered the Student Teaching option.

PERSISTENCE IN TEACHING IN PUBLIC SCHOOLS

Undergraduate and alternate program completers have the option of teaching in public schools in Louisiana, private schools in Louisiana, or schools in other states. It is not possible to track the retention of completers in private schools or out-of-state schools. The following two charts identify only the number and percentage of a cohort of program completers in 2013-14 who taught in public schools in Louisiana during a five year time period. Completers not reflected in the following chart may be teaching in private schools in Louisiana or teaching in other states.

The Louisiana Department of Education states that Compass is Louisiana's educator support and evaluation system designed to provide all educators with regular, meaningful feedback on their performance (http://www.louisianabelieves.com/teaching/compass). Under this system, every teacher in public schools in Louisiana is evaluated annually using a four-tiered rating – Highly Effective, Effective: Proficient, Effective: Emerging, and Ineffective. Half of the evaluation is based on achievement of student learning targets to generate the Compass Student Outcome score and half of the evaluation is based on observations by teachers' supervisors using the appropriate Compass rubric to generate a Compass Professional Practice score. The two scores are combined to generate Compass Final Evaluation Scores that range from 1.00 to 4.00.

The first Compass chart identifies the mean <u>Student Growth</u> scores of all new teachers with less than two years of teaching experience who taught in 2016-17, 2017-18 and 2018-19 and completed undergraduate teacher preparation programs during or before 2017-18. It identifies the percentage of first and second year teachers who obtained Compass Student Growth scores in each of the four effectiveness levels after completing their undergraduate teacher preparation programs.

The second Compass chart identifies the mean <u>Professional Practice</u> scores of all new teachers with less than two years of teaching experience who taught in 2016-17, 2017-18 and 2018-19 and completed undergraduate teacher preparation programs during or before 2017-18. It identifies the percentage of first and second year teachers who obtained Compass Professional Practices scores in each of the four effectiveness levels after completing their undergraduate teacher preparation programs.

The third Compass chart identifies the mean <u>Final Evaluation</u> scores of all new teachers with less than two years of teaching experience who taught in 2016-17, 2017-18 and 2018-19 and completed undergraduate teacher preparation programs during or before 2017-18. It identifies the percentage of first and second year teachers who obtained Compass Final Evaluation scores in each of the four effectiveness levels after completing their undergraduate teacher preparation programs.

The Louisiana Department of Education states that Compass is Louisiana's educator support and evaluation system designed to provide all educators with regular, meaningful feedback on their performance (http://www.louisianabelieves.com/teaching/compass). Under this system, every teacher in public schools in Louisiana is evaluated annually using a four-tiered rating – Highly Effective, Effective: Proficient, Effective: Emerging, and Ineffective. Half of the evaluation is based on achievement student learning targets to generate the Compass Student Growth score and half of the evaluation is based on observations by their supervisor using the appropriate Compass rubric to generate a Compass Professional Practice score. The two scores are averaged to generate a Compass Final Evaluation Scores that ranges from 1.00 to 4.00.

The results in the following tables represent new teachers in grades K-12 for all areas of certification.

The first Compass chart identifies the mean <u>Student Growth</u> scores of all new teachers with less than two years of teaching experience who taught in 2016-17, 2017-18 and 2018-19 and completed alternate teacher preparation programs during or before 2017-18. It identifies the percentage of first and second year teachers who obtained Compass Student Growth scores in each of the four effectiveness levels after completing their alternate teacher preparation programs.

The next Compass chart identifies the mean <u>Professional Practice</u> scores of all new teachers with less than two years of teaching experience who taught in 2016-17, 2017-18 and 2018-19 and completed alternate teacher preparation programs during or before 2017-18. It identifies the percentage of first and second year teachers who obtained Compass Professional Practices scores in each of the four effectiveness levels after completing their alternate teacher preparation programs.

The last Compass chart identifies the mean <u>Final Evaluation</u> scores of all new teachers with less than two years of teaching experience who taught in 2016-17, 2017-18 and 2018-19 and completed alternate teacher preparation programs during or before 2017-18. It identifies the percentage of first and second year teachers who obtained Compass Final Evaluation scores in each of the four effectiveness levels after completing their alternate teacher preparation programs.

Value-added scores have been calculated by the Louisiana Department of Education for all teachers whose students are assessed for mathematics, social studies, and English language arts. The value-added scores examine the growth of learning of grades 4-8 students and link the students' growth in achievement to their teachers and the teacher preparation programs that prepared the new teachers.

Value-added scores have been listed in the following tables for teachers with less than two years of teaching experience who have completed Elementary (Grades 1-5), Middle School (Grades 4-8), or Secondary (Grades 6-12) teacher preparation programs and are teaching grades 4-8 students in mathematics, social studies, and English/language arts.

Data have only been provided if there were 10 or more value-added scores for first and second year teachers for each content area. In some cases, the same teacher may have value-added scores for different content areas. As an example, an elementary teacher is responsible for teaching mathematics, social studies, and English language arts and the same teacher may have a value-added score included in the means for each of those areas. Thus, the same 10 or more teachers could have scores that were used to calculate the means for mathematics, social studies, and English language arts. In the case of a middle school teacher responsible for teaching just social studies, their value-added score would be calculated for social studies based upon the growth of all of their students.

On the following pages, all means describe the performance of the teacher preparation programs listed in the left column. The means and number of completers appear in the same row for each group. The valueadded score means were calculated using the Louisiana Department of Education hierarchical linear model. The value-added scores are rounded to the nearest tenth of a point. The means for new teachers are calculated for *all* teachers in a given content area who are teaching in their first or second year. If a program has 10 or more new teachers with 3 years of data (i.e., social studies), the 3-year mean is reported. Teachers from Louisiana teacher preparation programs are only counted as new if they entered as a first year teacher within five years or less from their program completion date. Data are not reported if institutions have less than 10 new teachers in a content area.

The Louisiana Department of Education also prepares tables that identify the distribution of value-added scores for all teachers for each academic year across the four teacher effectiveness levels (i.e., Ineffective; Effective: Emerging; Effective: Proficient; and Highly Effective) for the teacher evaluation system.

As an example, if a new teacher obtained a value-added score of 1.2 in English/Language Arts during 2018-19, their value-added score would fall within the Effective Proficient range. If another new teacher obtained a value-added score of -0.7 in Mathematics in 2018-19, their value-added score would fall within the Effective Emerging range. The percentages in the tables were based upon the numbers of new grades 4-8 teachers whose value-added scores fell within each of the effectiveness levels for the respective years.

A new Science assessment was piloted in the 2017-2018 school year and was not analyzed for valueadded in the 2018-19 school year. A new Social Studies assessment was piloted in the 2015-2016 school year and was not reported for value-added in the 2016-2017 and 2017-18 school years. The first statewide administration of a new assessment (PARCC) in Language Arts and Mathematics occurred in the 2014-15 school year and current results should not be compared to previous years. The distribution tables for 2016-17, 2017-18 and 2018-19 have been provided below.

The tables on the following pages identify the percentage of first and second year teachers who completed undergraduate teacher preparation programs and obtained value-added scores in each of the four levels of effectiveness for each of the three content areas when teaching students in grades 4-8. A minimum of 10 completers were required for each content area for percentages to be generated. The 10 or more scores were generated over a three year time period as new teachers taught mathematics, social studies, and English/language arts during the academic years 2016-17, 2017-18, and 2018-19.

APPENDIX A

Teacher Preparation Program 2020 Key Effectiveness Indicators

Teacher Preparation Analytics v 6.10.14

| Assessment Categories | Key Indicators | Measures |
|---|----------------------------------|---|
| Candidate Selection Profile | Academic Strength | PRIOR ACHIEVEMENT — (1) For Undergraduate Programs: Non-education course GPA required for program admission. Mean and range of high school GPA percentile (or class rank) for candidates admitted as freshmen. Mean and tercile distribution of candidates' SAT/ACT scores. GPA in major and overall required for program completion. Average percentile rank of completers' GPA in their major at the university, by cohort. (2) For Post-Baccalaureate Programs: Mean and range of candidates' college GPA percentile and mean and tercile distribution of GRE scores TEST PERFORMANCE — For All Programs: Mean and tercile distribution of admitted candidate scores on rigorous national test of college sophomore-level general knowledge and reasoning skills |
| | Teaching Promise | ATTITUDES, VALUES, AND BEHAVIORS SCREEN—Percent of accepted program candidates whose score on a rigorous and validated "fitness for teaching" assessment demonstrates a strong promise for teaching |
| | Candidate/Completer Diversity | DISAGGREGATED COMPLETIONS COMPARED TO ADMISSIONS —Number & percent of completers in newest graduating cohort AND number and percent of candidates originally admitted in that same cohort: overall and by race/ethnicity, age, and gender |
| Kanadadaa aad | Content Knowledge | CONTENT KNOWLEDGE TEST —Program completer mean score, tercile distribution, and pass rate on rigorous and validated nationally normed assessment of college-level content knowledge used for initial licensure |
| Knowledge and Skills for Teaching | Pedagogical Content Knowledge | PEDAGOGICAL CONTENT KNOWLEDGE TEST —Program completer mean score, tercile distribution, and pass rate on rigorous and validated nationally normed assessment of comprehensive pedagogical content knowledge used for initial licensure |
| | Teaching Skill | TEACHING SKILL PERFORMANCE TEST —Program completer mean score, tercile distribution, and pass rate on rigorous and validated nationally normed assessment of demonstrated teaching skill used for initial licensure |

| Assessment Categories | Key Indicators | Measures |
|-----------------------------|--|---|
| | Completer Rating of Program | EXIT AND FIRST YEAR COMPLETER SURVEY ON PREPARATION —State- or nationally-developed program completer survey of teaching preparedness and program quality, by cohort, upon program (including alternate route) completion and at end of first year of full-time teaching |
| Performance as | Impact on K-12 Students | TEACHER ASSESSMENTS BASED ON STUDENT LEARNING —Assessment of program completers or alternate route candidates during their first three years of full-time teaching using valid and rigorous student-learning driven measures, including value-added and other statewide comparative evidence of K-12 student growth overall and in low-income and low-performing |
| Classroom Teachers | Demonstrated Teaching Skill | ASSESSMENTS OF TEACHING SKILL—Annual assessment based on observations of program completers' or alternate route candidates' first three years of full-time classroom teaching, using valid, reliable, and rigorous statewide instruments and protocols |
| | K-12 Student Perceptions | STUDENT SURVEYS ON TEACHING PRACTICE —K-12 student surveys about completers' or alternate route candidates' teaching practice during first three years of full-time teaching, using valid and reliable statewide instruments |
| Program Productivity, | Entry and Persistence in Teaching | TEACHING EMPLOYMENT AND PERSISTENCE —(1) Percent of completers or alternate route candidates, by cohort and gender–race-ethnicity, employed and persisting in teaching years 1-5 after program completion or initial alternate route placement, in-state and out-of-state —(2) Percent of completers attaining a second stage teaching license in states with multi-tiered |
| Alignment to State Needs | Placement/ Persistence in High- Need Subjects/Schools | HIGH-NEED EMPLOYMENT AND PERSISTENCE—Number & percent of completers or alternate route candidates, by cohort, employed and persisting in teaching in low-performing, low-income, or remote rural schools or in high need subjects years 1-5 after program completion or initial alternate route placement, in-state and out-of-state |
