WHAT ARE STUDENTS SAYING ABOUT THE ULM HONORS PROGRAM?
“The ULM Honors Program is a wonderful opportunity for outstanding students who are willing to take that extra step to become more well-rounded, informed, and intelligent individuals. Students in the ULM Honors Program are the best and the brightest at ULM and are viewed highly by their peers, professors, and other professionals. Thanks to this program, I am now a graduate student at the College of Medicine at University of Arkansas for Medical Sciences.”
– LARA CRAWFORD, 2016 Honors Graduate

“The ULM Honors Program offers motivated students a collegiate experience that is as unique as they are. Within it, I found a tight-knit community of support and friendship that will last long past my time here at the university.”
– CAMILLE LABATUT, Political Science

“The ULM Honors Program has opened doors for me that would otherwise never have been opened. The classes have challenged my abilities and the professors have taught me how to be a successful student, both in and out of the classroom.”
– REANNA ROBERTS, Communications

“Through the opportunities afforded me through the ULM Honors Program, I earned a competitive edge in the pursuit of a graduate degree at a top university and a job with a Fortune 500 Company. As an alumna of the ULM Honors Program, I can draw on so many tools that I earned through my time spent with such diverse, focused, and engaged Honors students and faculty. Choosing to attend ULM was a great decision, and choosing to pursue an honors degree only solidified that for me.”
– KAREN WOOLIE
2011 Honors Graduate, M.A. Graduate
