Detection Capabilities

- AI Content Detection**
The most comprehensive AI solution, with over 99% accuracy, detection of AI-generated text that's been plagiarized or paraphrased, and full model coverage that includes ChatGPT, Gemini, and Claude.
- Plagiarism**
Identify potential plagiarism across nearly every language, including multiple forms of paraphrasing, avoid potential copyright infringement, and ensure originality.
- Writing Assistant**
Provides suggestions for improving overall tone.

[Advanced Settings](#) Auto-saved: Never

- In the new tab you will be able to customize the settings you would like for your assignment. On the left there are General Settings. On the right there are 4 tabs which open to display more specific settings. Once you have decided on your settings, click Save Settings from the bottom right. A confirmation message will appear in the top right. Finally, you can close out the tab and return to Canvas.
- Save** or **Save & Publish** your assignment from within Canvas.
As Canvas may not immediately notify Copyleaks that an assignment has been created, we

Getting Started with CopyLeaks

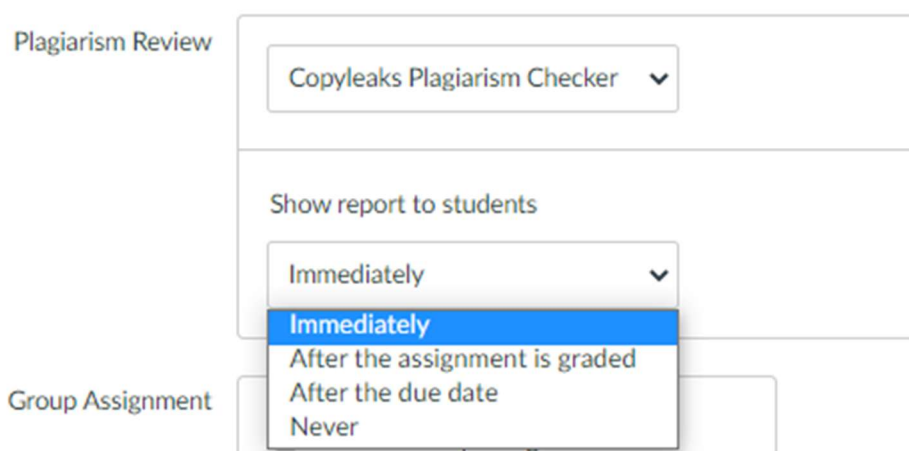

suggest waiting up to 90 seconds between creating the assignment and making the first submission. This will allow Canvas to notify us that the assignment has been created.

Note: Settings with a lock icon next to them have been locked by your institutions administrator and cannot be changed at the assignment level.

If you have a template that you'd like excluded automatically from all of the submissions in an assignment (i.e. a list of questions which all students are submitting their answers below) please see our page [here](#) for the instructions to do so.

Setting Similarity Report availability

When creating the Assignment, you can choose when the Similarity Report will be shown to students Immediately, After the assignment has been graded, After the due date, or Never.

The image shows a screenshot of the CopyLeaks settings interface. On the left, there are two sections: 'Plagiarism Review' and 'Group Assignment'. The 'Plagiarism Review' section has a dropdown menu set to 'Copyleaks Plagiarism Checker'. Below it, the 'Show report to students' section has a dropdown menu with four options: 'Immediately', 'After the assignment is graded', 'After the due date', and 'Never'. The 'Immediately' option is currently selected and highlighted in blue.

Accepted file types and sizes

11. The maximum file size allowed is 25MB.
12. The maximum document length allowed is 2000 pages (500K words).

Accessing the Similarity Report

The Similarity Report can be accessed from within SpeedGrader.

1. Select SpeedGrader from the right-hand side of the assignment.

The screenshot shows the SpeedGrader interface for an assignment titled "English Essay". On the right side, there is a "Related Items" section with a "SpeedGrader" link circled in red. Below this, there are options for "Download Submissions" and "0 out of 3 Submissions Graded". The main content area shows the assignment details, including a "Published" status, an "Edit" button, and a "Submitting" section with a "Points" of 0 and a "For" field set to "Everyone". A table with columns "Due", "For", "Available from", and "Until" is visible. On the left sidebar, there are various navigation options like "Home", "Announcements", "Assignments", "Discussions", "Grades", "People", "Pages", "Files", "Syllabus", "Outcomes", "Rubrics", "Quizzes", "Modules", "BigBlueButton", "Collaborations", "Plagiarism Checker", "Copyleaks", and "Settings".

2. To view your Similarity Report, click on the percentage that is shown on the right side of the SpeedGrader. For this example, the percentage is 100%.

The screenshot shows the submission details for a file named "sample1-7.txt". At the top, it indicates "0/1 Graded" and "1/1" with a user profile for "Aihm Aburafa". Below this, the submission date is "Submitted: Mar 12 at 12:53am". The "Submitted Files" section shows a file named "sample1-7.txt" with a "100%" similarity score highlighted in a red box. There are also icons for deleting and downloading the file.

3. The similarity report will open in a new tab. Learn more about interpreting the similarity report and results [here](#).

The screenshot shows the CopyLeaks similarity report for a text file. The main text area displays the original text with highlighted matching segments. On the right side, there is a "Matched Text" section showing a 98.9% similarity score. Below this, there is a "Matching Text Results (8)" section with a search icon and a filter icon. The results are categorized by source: "Internet" (14%, 1 Results), "Copyleaks internal database" (43%, 3 Results), and "Repository" (43%, 3 Results). The "Repository" result is expanded, showing a match with "your-file.html" from the "Internal Database Result - Your Organization's File" with a 98.9% similarity score. The text of the match is: "Confucianism, Daoism (Taoism), and Buddhism generally name the three main currents of Chinese thought, although it should be obvious that like any".

Getting Started with CopyLeaks

If a student's similarity report is still generating, you will notice a 'pending clock' alongside that student's submission as well as within SpeedGrader. This clock will disappear once the similarity report has fully generated.

If a student's similarity report generating process failed, you will notice an 'exclamation mark' alongside that student's submission as well as within SpeedGrader. click on it to show the error.

Important Information

1. Please ensure you have enabled your browser to “Allow Third Party Cookies”
2. As Canvas may not immediately notify Copyleaks that the student submission has been created, we suggest waiting up to 90 seconds before clicking on the resubmit button. This will allow Canvas to notify us that the assignment has been created.
3. If a student uploads multiple versions of a document to the same assignment, we will NOT compare to their previous submissions. For example, if a student uploads Version 1, Version 2, and Version 3 of a document, we will NOT scan Version 3 against Version 1 and Version 2. However, if the student has uploaded this document to a different assignment, it will be compared. For example, if the assignment is uploaded to English 101 and History 101, we will compare the two against one another.
4. When enabling **Submission Type**, the **Text Entry** option will only scan the first attempt. If multiple attempts desired, we do not recommend enabling **Text Entry**.
5. When **Duplicating / Importing / Copying** an assignment, the assignment Copyleaks configuration settings will be copied into the new assignment. However, right now we do **NOT** support complete Course Duplication.
