

ULM Voice Area Auditions: Video Submission Requirements

- The audition will be acoustic with no added audio effects (no mics or post production editing).
- The auditioning student will dress professionally as if auditioning in person.
- If the student is using a recorded accompaniment, it should be amplified through a Bluetooth speaker so it is audible to both the student and the listener.
- Recorded accompaniments from AppCompanist are allowed.
- ULM piano faculty can provide help with recording accompaniments if necessary.
- If the auditioning student chooses to use an accompanist for their audition video, please follow current COVID-19 CDC guidelines in your recording process.
- The audition video is a performance, so the student should be standing against a neutral backdrop and should be visible at least from the knees up.
- All audition videos must be uploaded to YouTube with an **unlisted** privacy setting, and YouTube links to all videos will be sent to Dr. Vangelisti at vangelisti@ulm.edu in order for submission to be complete.
