SPLP 4004 departmentally-constructed project. SPLP 4004 student generated Power Point present based on research of communication disorders and an ethnic and/or social culture other than their own. SPLP 4001 on a comprehensive evaluation of transcription of normal speech.

Target(s):

1. 90% of the students will score 80% or better on a departmentally constructed project, a case study required in SPLP 4004, applying the knowledge and skills acquired.
2. 100% of the students in SPLP 4004 will complete a Powerpoint presentation based on research of communication disorders and differences in an ethnic and/or social culture other than their own.
3. 80% of students who take Phonetics (SPLP 4001) will score 80% or better on a comprehensive evaluation of transcription of normal speech.

Does this degree program have an online version?:

No

Was this target met?: Met

Results - Explain target met answer:

1. 96% of the students did score 80% or better on a departmentally constructed project, a case study required in SPLP 4004, applying the knowledge and skills acquired.
2. 100% of the students in SPLP 4004 did complete a Powerpoint presentation based on research of communication disorders and differences in an ethnic and/or social culture other than their own.
3. 88% of students who took Phonetics (SPLP 4001) will score 80% or better on a comprehensive evaluation of transcription of normal speech.

Actions to Seek Improvement or Maintain Success:

To continue to offer the same curriculum to maintain success for the target.

Student Learning Outcome #3:

The student will successfully complete the undergraduate program making them eligible for admission into a graduate program in speech-language pathology or audiology.

Measure(s):

Completion of 25 clinical clock hours of supervised observation in SPLP 4010. Acceptance into a speech-language pathology graduate education program over a five year period.

Target(s):

1. 100% of the students will obtain 25 clinical clock hours of supervised observation in SPLP 4010.
2. After completing the undergraduate program in Speech-Language Pathology, the five year average of graduates accepted into a master's program will be 70% or above.

Does this degree program have an online version?:

No

Was this target met?: Met

Results - Explain target met answer:

1. 100% of the students did obtain 25 clinical clock hours of supervised observation in SPLP 4010.
2. After completing the undergraduate program in Speech-Language Pathology, the five year average of graduates accepted into a master's program was 87%.

Actions to Seek Improvement or Maintain Success:

To continue the same curriculum to meet the target for this objective.
